## Education

2010 - 2013 **Master program: Software Engineering & Management, Linköpings Universitet, Sweden**  
The program provided the facility to work on state-of-the-art technologies with practical oriented work approach in the following fields

- Software Engineering (Basic and Advanced), Programming
- Advanced Web Programming (PHP/MySQL, CodeIgniter MVC framework)
- Software Testing, Computer Security, Design Patterns
- Component Based Software, Software Engineering with International Partners
- Real Time Systems, IT Project Management

### Thesis

My master's thesis, "A Framework for interacting with Parameterized and infinite state Verification Tools" ([Thesis report available here](#)), was related to the mathematical modelling of parameterized systems (systems with an arbitrary number of processes). The system was implemented in Java and a parser was also developed using ANTLR. I was a novice in java and compiler construction, but I mastered them successfully and completed the thesis work, which demonstrates my enthusiasm for taking on challenges and learning new things.

2005-2009 **Bachelor's degree in Computer Engineering, COMSATS Abbottabad, Pakistan**

During my bachelor's degree (4 years) I was among the top 3 students of my class and received a merit scholarship throughout the degree program. Major courses were,

- Programming in C/C++, OOP, Data structures, Databases, Software Engineering
- Operating Systems, Computer Architecture (Basic & Advanced)

---

## Work experience

2013-Present **COMSATS IT Center, COMSATS University, Abbottabad, Pakistan**

As a **Software Engineer** in COMSATS IT centre, I must carry out requirements engineering and development in open-source technologies like PHP/MySQL and WordPress. I am also responsible to deal with national/international clients regarding project updates, project deadlines and successful execution.

### Undergraduate Courses taught

Software Engineering-1, Android Programming

### Android Apps at Google Play

[CUOnline Student Portal](#), [CUI Employees](#), [Modernage Student Portal](#), [Modernage Teachers](#)

### Campus Website

## Trainings

Organized/conducted the following trainings over the last few years.

- Two Days Workshop on Freelancing
- Freelancing Bootcamp
- TECHIES Winter Camp 2017
- TECHIES Summer Camp 2015
- Learn PHP/MySQL in 21 Days
- One Day Workshop on Freelancing
- 5 Days Open-Source Workshop
- 5 Days Open-Source Workshop-II
- PHP & MySQL Training
- Open-Source Training-III
- Android Essential Training
- Android Essential Training -II

## Freelance Career

I am a top-rated freelancer on UpWork.com with 100% job success rate. I have completed 35 projects on UpWork (Online freelancing platform) with 1450+ hours on these projects. Here is my UpWork and PeoplePerHour public profile URL.

### 2009-2010 **RopStam BPO, Islamabad, Pakistan**

I worked on a variety of project while working as a web developer. The projects varied from technical writing, internet marketing (Search Engine Optimization), blogging, link building, directory submissions, websites updating and development of web applications.

### Oct 2005 **Swiss Humanitarian Aid Unit, Pakistan (Voluntary)**

During October 2005 earthquake, I worked one month voluntarily as a website developer for the affectee of Mansehra district.

---

## Computer Skills

<b>WordPress, PHP/MySQL</b>	Very good knowledge
<b>Android (Java), REST API</b>	Good knowledge

---

## Languages

<b>English</b>	Very good knowledge
<b>Urdu</b>	National language

---

## Interests

I have a keen interest in sports and particularly cricket. In my spare time I play cricket and video games. During vacations, I also love to go for hiking and camping expeditions.
